

## University of Washington ADVANCE Bibliography

The following references are a compilation of research regarding equity in workplaces and academic scholarship spanning many disciplines and topics. This archive represents five years of scholarship collected for grants proposals, journal articles, conference papers and presentations, and web content in advocacy of underrepresented groups in higher education. Specific topics included in this comprehensive bibliography are diversity, mentoring, faculty recruitment and retention, unexamined bias, work/life balance, and underrepresentation in STEM, and are relevant to women, mentors, evaluation committee members, lesbians & gays in higher education, underrepresented student populations, academic leaders, scientists, social scientists, and diversity advocates.
